Listen. Think. Design. Refine.

We listen to your needs and design thoughtfully refined solutions. Empowering your business through cloud-based ERP solutions, crafted with care.

The lowest price
At our company, we pride ourselves on offering the lowest prices in the market without compromising on quality. We understand that cost can be a major concern for our customers, which is why it's our top priority to keep our prices competitive. Our goal is to provide our customers with the best value for their money, and we do this by constantly reviewing our prices and negotiating with our suppliers to ensure that we are getting the best deals. We believe that by offering the lowest prices, we can help our customers save money and grow their business. And that's our main focus.

The fastest on the market
At our company, we take great pride in being the fastest on the market without compromising on quality. Our team is dedicated to providing our customers with quick and reliable service. We understand that time is of the essence, which is why we make it a priority to deliver our products and services as quickly as possible. Our products are also designed to be fast, efficient and easy to use, so our customers can get things done quickly. We understand that in today's fast-paced business environment, time is a valuable commodity, and we are committed to helping our customers make the most of it. We offer the best support and loyalty programs in the industry, and we work hard to keep it that way.

The most loved
At our company, we believe that happy customers are the key to our success, and we work hard to ensure that every customer is completely satisfied with our products and services. Our team is dedicated to providing excellent customer service and going above and beyond to meet the needs of our customers. We are constantly seeking feedback and making improvements to ensure that we are meeting the expectations of our customers. Our products are also designed to be user-friendly and to provide the best possible experience. As a result, we have a loyal customer base that loves our products and services. We are proud to say that we have some of the most satisfied and loyal customers in the industry, and we work hard to keep it that way.

Built with Astro, I was able to transform a previously slow WordPress site into a blazing-fast website that includes SEO. One of the advantages of Astro is the wealth of available templates, which can help quickly build custom pages to meet the unique needs of the client. As a result, I am currently working on another Astro site for a referral from this client, showcasing my ability to provide professional, top-tier service to my clients. It implements a form via Formspre to email the owner

Littlesea Caravan site

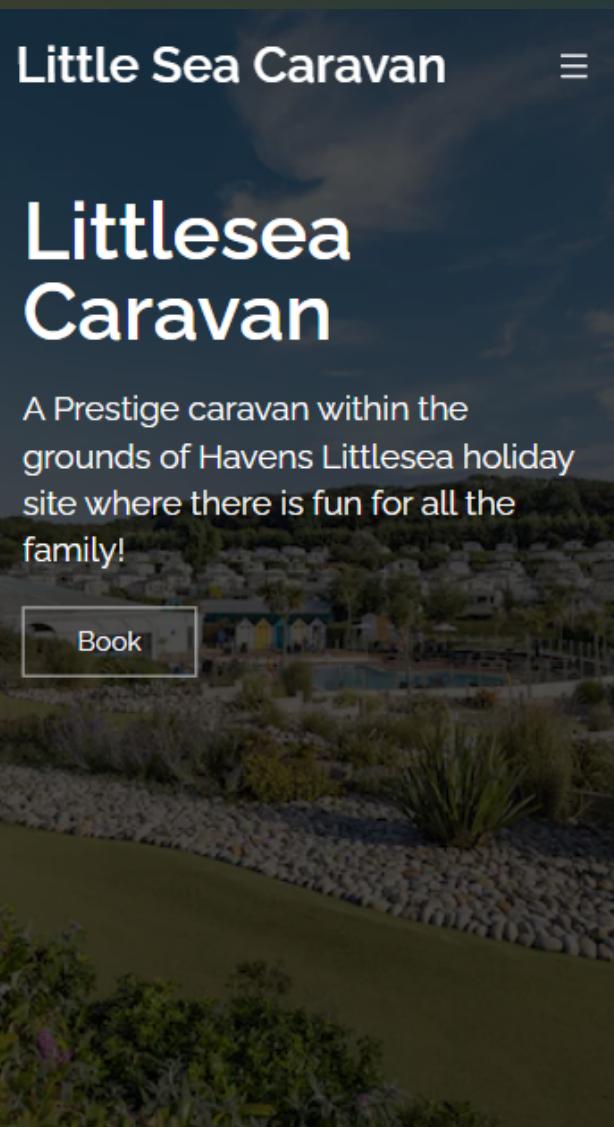

Finished Site

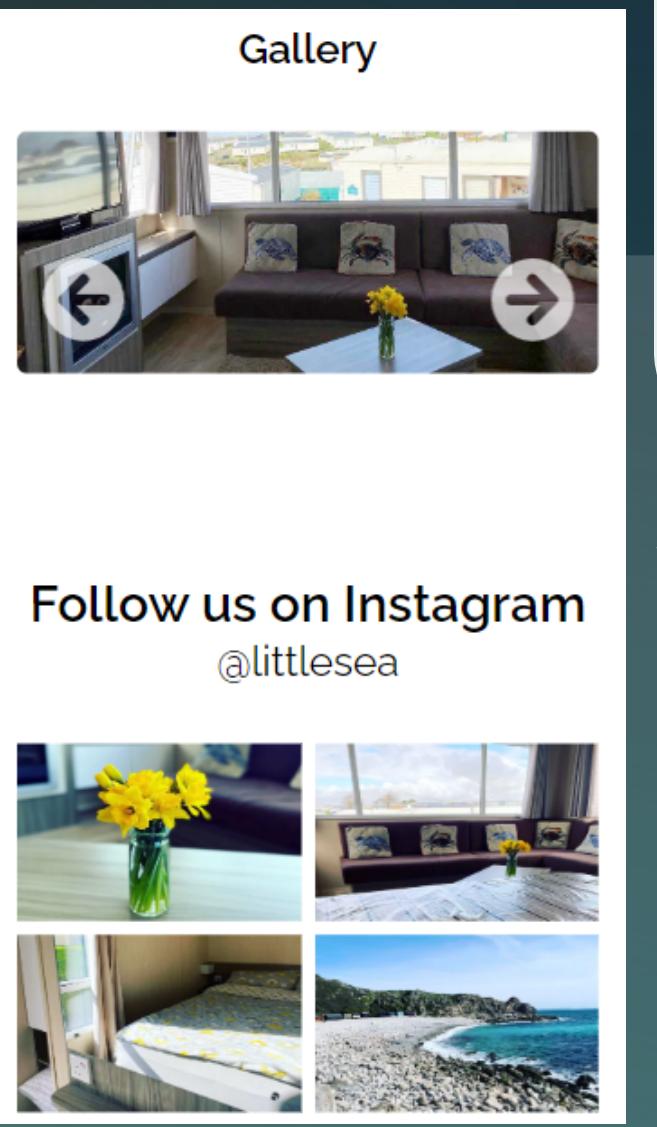

[Version of the live site here](#) Review

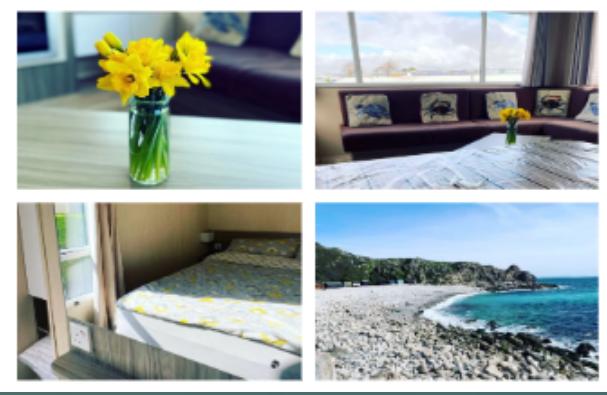

Responsive

A website I built for a client. It is built using Next.Js and Tailwind and is fully responsive with accessibility and SEO in mind. I worked closely with the client listening to what they required for the site and keeping this at the forefront of the design process. It's a simple but modern site to showcase a Holiday home that is let via Airbnb.

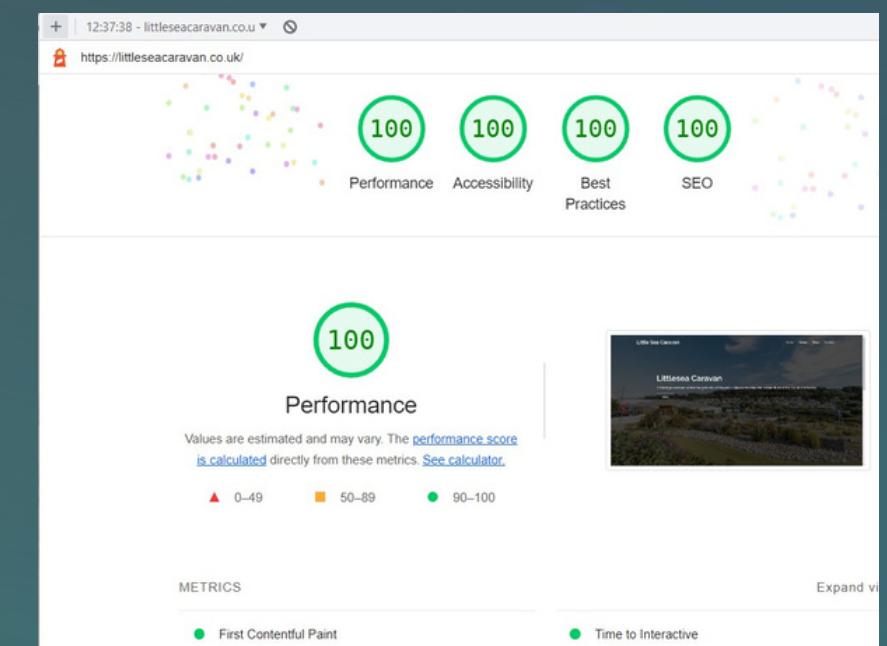

Follow us on Instagram
@littlesea

"I recently worked with Joe to create a website for my holiday home business. I was extremely impressed with the results. The site that Joe built for me is easy to use on any device and looks great on phones and tablets as well as desk top, it was extremely important to me that our site looked professional across all devices and that the functionality was there for everybody. He also made sure that the site would rank well in search engines, which is important for getting more bookings. He gave us specific advice on how we could achieve our goals. Joe was easy to work with and paid close attention to my needs throughout the project. The final website is modern and stylish, and it does an excellent job of showcasing my holiday home. I would highly recommend this developer to anyone looking to create a new website."

SEO

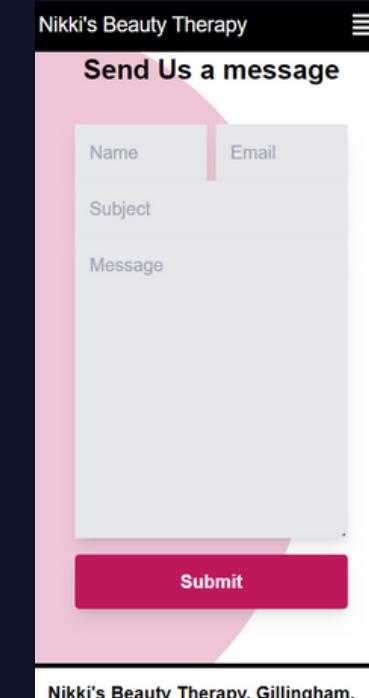

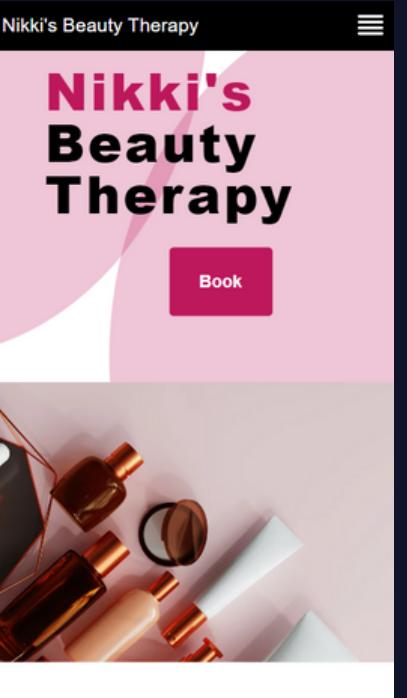

Mobile beauty

site

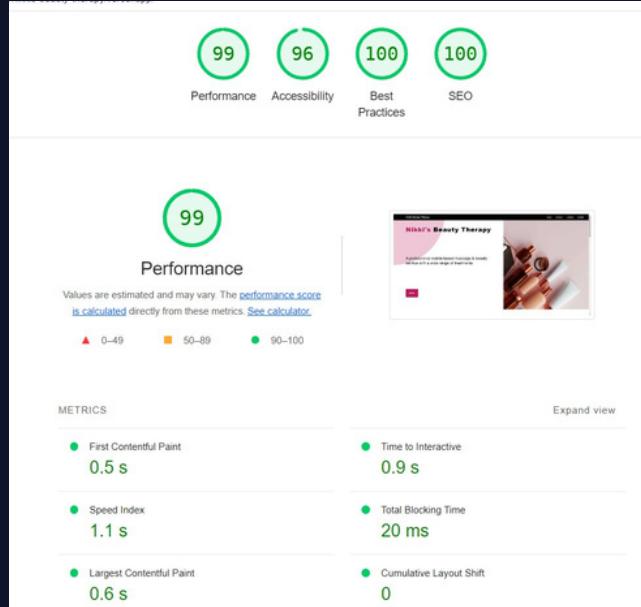

Recently completed website project for a client using Next.js and Tailwind. The site is designed to be fully responsive, accessible, and optimized for SEO. Throughout the project, I focused on understanding the client's specific needs and incorporating them into the design. The end result is a clean and modern website that effectively showcases the client's small mobile beauty business.

Redeem

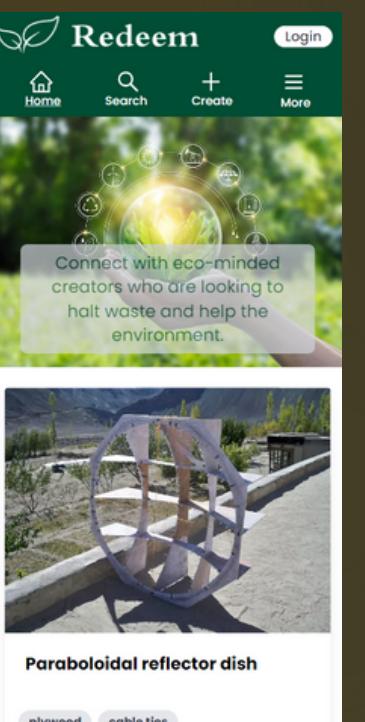

This was a project with a team of 6 developers. We worked in an Agile way to produce the MVP from scratch.

We decided to follow the format of designing for mobile first. This allowed us to think about how components would rearrange and resize dynamically depending on the screen size. Various iterations of the navigation menu can be seen below, the final version was decided after user research and can be seen on the frames on the right.

Gladrags Dorset

[Version of the live site here](#)

Another Astro conversion, I was able to transform a previously slow WordPress site into a blazing-fast website that includes SEO. One of the advantages of Astro is the wealth of available templates, which can help quickly build custom pages to meet the unique needs of the client. As a result, I am currently working on another Astro site for a referral from this client, showcasing my ability to provide professional, top-tier service to my clients. It implements a form via Formspree to email the owner

Performance

Finished Site

The website features a header with the Glad Rags logo and navigation links for Home, Costumes, Pricing, and Contact. Below the header is a welcome message about the physical shop closing and the availability of costumes for rent. A "Contact Us" button is present. To the right is a photograph of a clothing rack filled with various costumes.

Responsive

The mobile version of the site shows the same header and welcome message. The "Contact Us" button is replaced by a "Contact Us" link. The main content area is smaller, and the photograph of the clothing rack is scaled down.
